

Job Description

Job Title: Commissioning Engineer
Department: Projects
Location: Lloret House, 20 Ullswater Crescent, Coulsdon
Reporting to: Projects Director
Responsible for: Project Team
Position: Full Time PAYE

Job Summary

Lloret Fire Solutions has established themselves as one of the leading independently owned Fire Alarm and associated system specialists in the South East. We understand that every building presents unique fire safety challenges, which is why we provide tailored fire alarm systems designed to meet each client's specific risk profile and building requirements.

Our expertise covers design, installation, commissioning and maintenance of fire solutions across London. By sourcing cutting-edge equipment directly from reputable, independent manufacturers, we ensure access to the latest technology and expert-level support. From the first enquiry to project handover, our experience teams are committed to delivering exceptional service, technical excellence, and complete peace of mind.

To join the Lloret team you will be joining an LPCB-approved company to LPS1014, and operating under an ISO9001-certified management system, with Lloret Fire Solutions standing for quality and unwavering reliability in fire safety.

The role will be based onsite on projects in and around London.

Key Responsibilities for this Role Are:

Project Delivery

- Install and commission fire alarm systems, ensuring full compliance with BS 5839 Part 1
- Compliance and documentation to ensure all work meets regulatory requirements, maintain accurate records, and produce reports and certification.
- Customer communication is required to provide updates, recommendations, and technical explanations to clients whilst on site.

Skills Required:

- Previous experience as a fire solutions engineer (essential)
- Excellent communication skills both written and verbal

Lloret.

- Strong organisational skills, attention to detail and the ability to work in a fast-paced environment
- Flexible and adaptable to change
